1-403-243-4848 (Calgary)

1-888-220-4666 (Canada Wide)

Ultrasonic Water Flowmeters

- Battery powered ultrasonic water flowmeters measuring flow rate, consumption, pressure, detection of water leakages
- Water flowmeters for large flow rates volumes

Induction Flowmeters

- Flowmeters with wear resistant lining for abrasive liquids and mixtures
- Flowmeters for electrically conductive liquids in closed piping system – measurements done in both flow directions

Ultrasonic Flowmeters

- Flowmeters for electrically conductive and non-conductive liquids
